

## School report APPS 2023 – 25

***Mahatma Gandhi once said "Live as if you were to die tomorrow. Learn as if you were to live forever."***

Good evening one and all present here. A warm welcome to our esteemed chief guest Col Chandraneel Ramnathkar, Dy Commandant, The Maratha light Infantry Regimental centre and Chairman of our school. I extend my hearty welcome to all the other dignitaries, parents, students and all our well-wishers! We are delighted to have you with us, enhancing the vibrancy of this special occasion.

It is with immense joy and pride that I stand before you today to celebrate the vibrant spirit of our school on this Annual Day. Each day, our little learners illuminate our school with their curiosity and enthusiasm, turning every moment into a magical adventure.

In this nurturing environment, our dedicated team of educators strive to ignite the flame of knowledge and creativity in our children. Today's celebration is a testament to their growth, not just academically, but emotionally and socially. Their giggles, innocent questions, and artistic endeavors fill our hearts with boundless happiness.

Our theme this year, "Udaan – Mann ki khwaish," perfectly encapsulates the essence of our childrens' en number of wishes. Just like flowers need time to bloom, our children are flourishing into unique individuals with diverse talents and potentials.

This evening I would like to make a special mention of our todays chief guest Col Chandraneel Ramnathkar. Sir, has been an invaluable pillar of support, tirelessly dedicating himself to the betterment of our school through his unwavering commitment and passion for education. His tireless efforts have helped the school propel towards continuous success and growth.

Our school envisions to be a modern center of learning, imparting holistic education encompassing academics, co-curricular activities, and character development.

***As - B.B. King said "The beautiful thing about learning is that no one can take it away from you."*** Our school emphasizes holistic learning, skill development, and flexibility, fostering a multidisciplinary approach, with a focus on technology integration and global exposure. We aim to create a modern, inclusive, and globally competitive education landscape aligning to the goals set by NEP 2020.

The Activity cum Resource Room in our school serves as a dynamic hub for interactive learning. Equipped with educational materials, technology, and flexible spaces, it enhances student engagement, fosters creativity, and provides

a resourceful environment for both collaborative projects and independent exploration.

Our school's play area is a vibrant space designed for the holistic development of students. With colorful playground equipment, safe surroundings, and engaging activities, it promotes physical fitness, social interaction, and imaginative play, ensuring a joyful and active learning experience for all.

Co-Curricular Activities, play a crucial role in preschool education. These activities go beyond traditional academics, focusing on the all-round development of a child. The co-curricular activities in our school include arts and crafts, music, storytelling, physical activities, and group games. These activities enhance social, cognitive, and motor skills while fostering creativity and a love for learning in young children.

To promote confidence, social skills, and a sense of community, special assemblies are conducted at every festival and on important days. A special assembly at the school is a delightful occasion where our little stars showcase their talents and creativity by confidently expressing themselves.

Festival celebrations at Army Primary School are more than just joyous occasions; they are invaluable learning experiences. Through colorful decorations, interactive activities, and age-appropriate explanations, children not only revel in the festivities but also absorb cultural and social values. These celebrations foster a sense of community, inclusivity, and an early appreciation for diverse traditions.

We hold a variety of competitions in the school throughout the year like 'you and me fancy dress competition', 'fireless cooking competition', 'recitation competition' and many more for our children and parents. Our children also participated in different interschool competitions like drawing competition, colouring competition, sports events and others. These competitions cultivate skills, teamwork, and a healthy spirit of winning and losing among the students. Whether academic, sports, or cultural events, these competitions foster personal growth, boost confidence, and create memorable experiences that contribute to a well-rounded education.

Our school offers diverse activities for children, promoting holistic development. From interactive learning and creative arts to sports and teamwork, these activities enhance social skills, foster creativity, and instill a love for lifelong learning in a joyful and nurturing environment.

In conclusion, this school report reflects the collective efforts and achievements of our students, teachers, and staff. Together, we've created a dynamic learning community that values excellence, diversity, and growth. As we celebrate our successes, we also acknowledge areas for improvement, committed to

continuous progress. Our school remains dedicated to nurturing curious minds, fostering resilience, and preparing students for a future filled with limitless possibilities. Let this report serve as a testament to our shared commitment to education and the bright future that lies ahead for each student. With gratitude for the collective dedication of our school community, we look forward to another year of inspiring learning experiences and accomplishments. Thank you for your ongoing support in shaping the future of our students and the success of our school.
